

Snom Technology GmbH

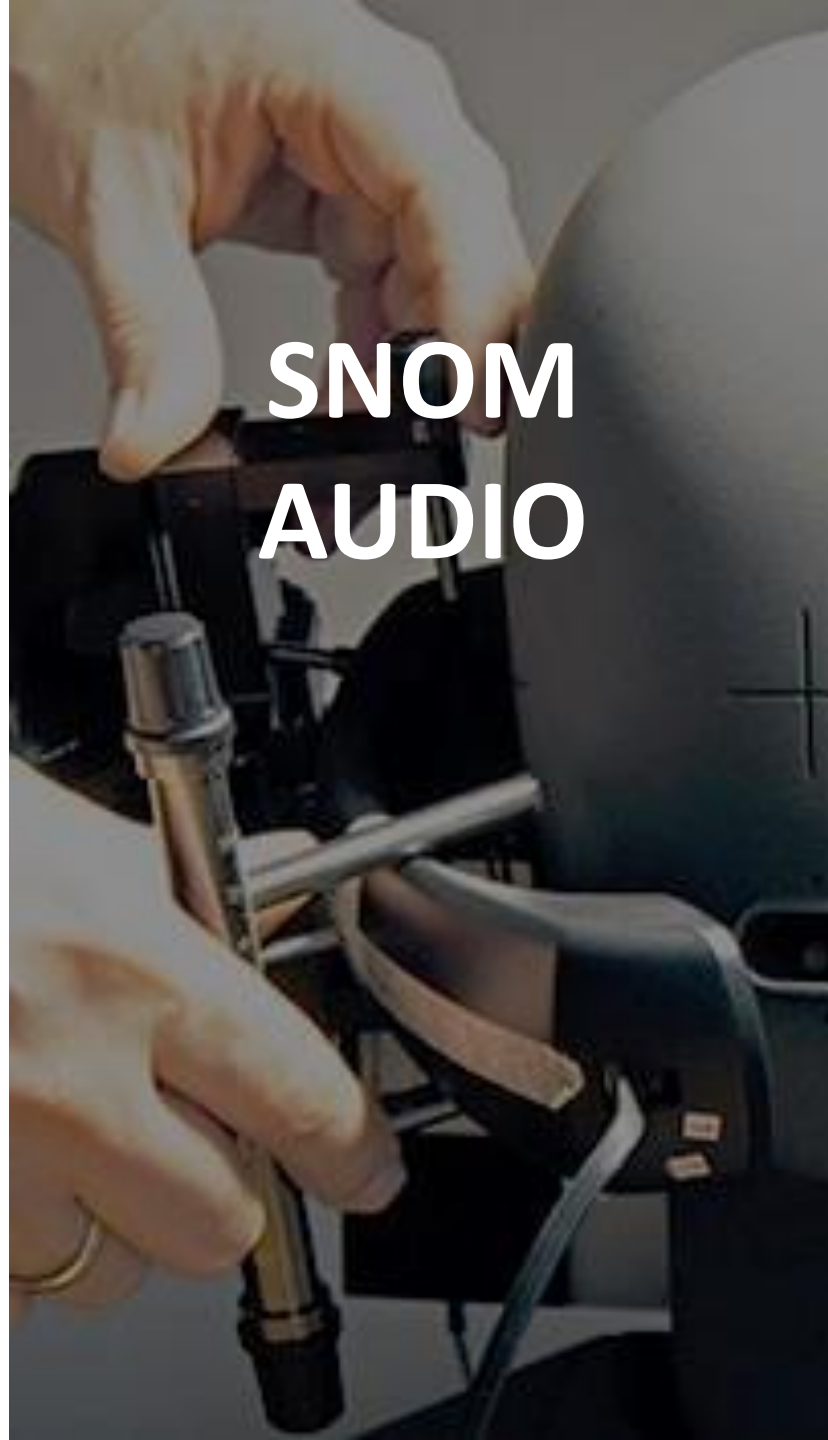

We. Do. Voip!

20+ years of innovation and success

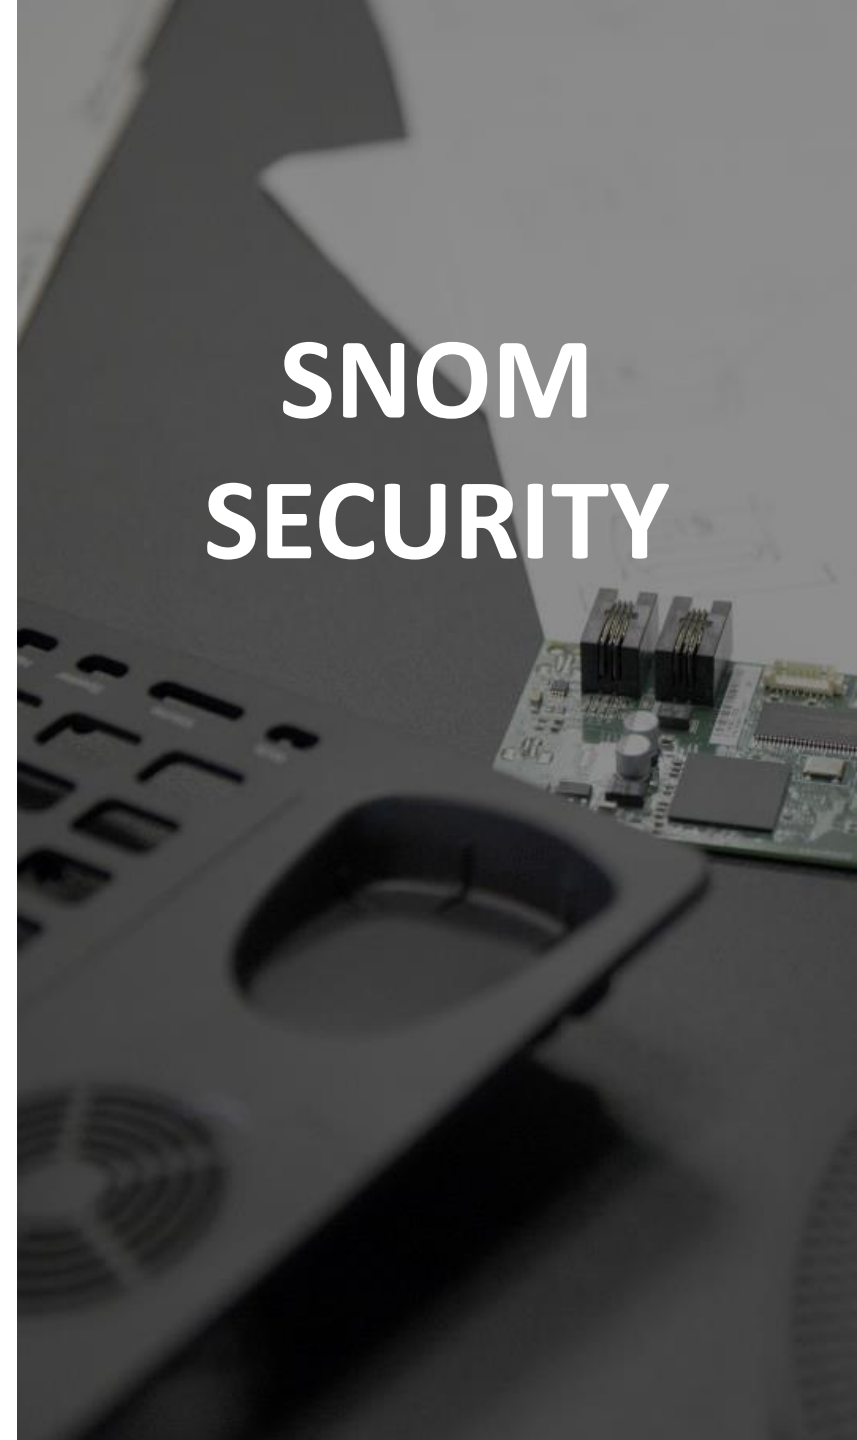

- One of the market leader for professional and enterprise VoIP phones and accessories
- Exceptional audio and sound quality for all products
- Universally compatible with the leading PBX platforms
- Quality awareness through the **in-house** development and control of all products and services
- More than 7 million end-point installations globally
- More than 4,000 installation partners worldwide
- Snom has been part of the Vtech Group since November 2016

SNOM ENGINEERING

SNOM AUDIO

SNOM SECURITY

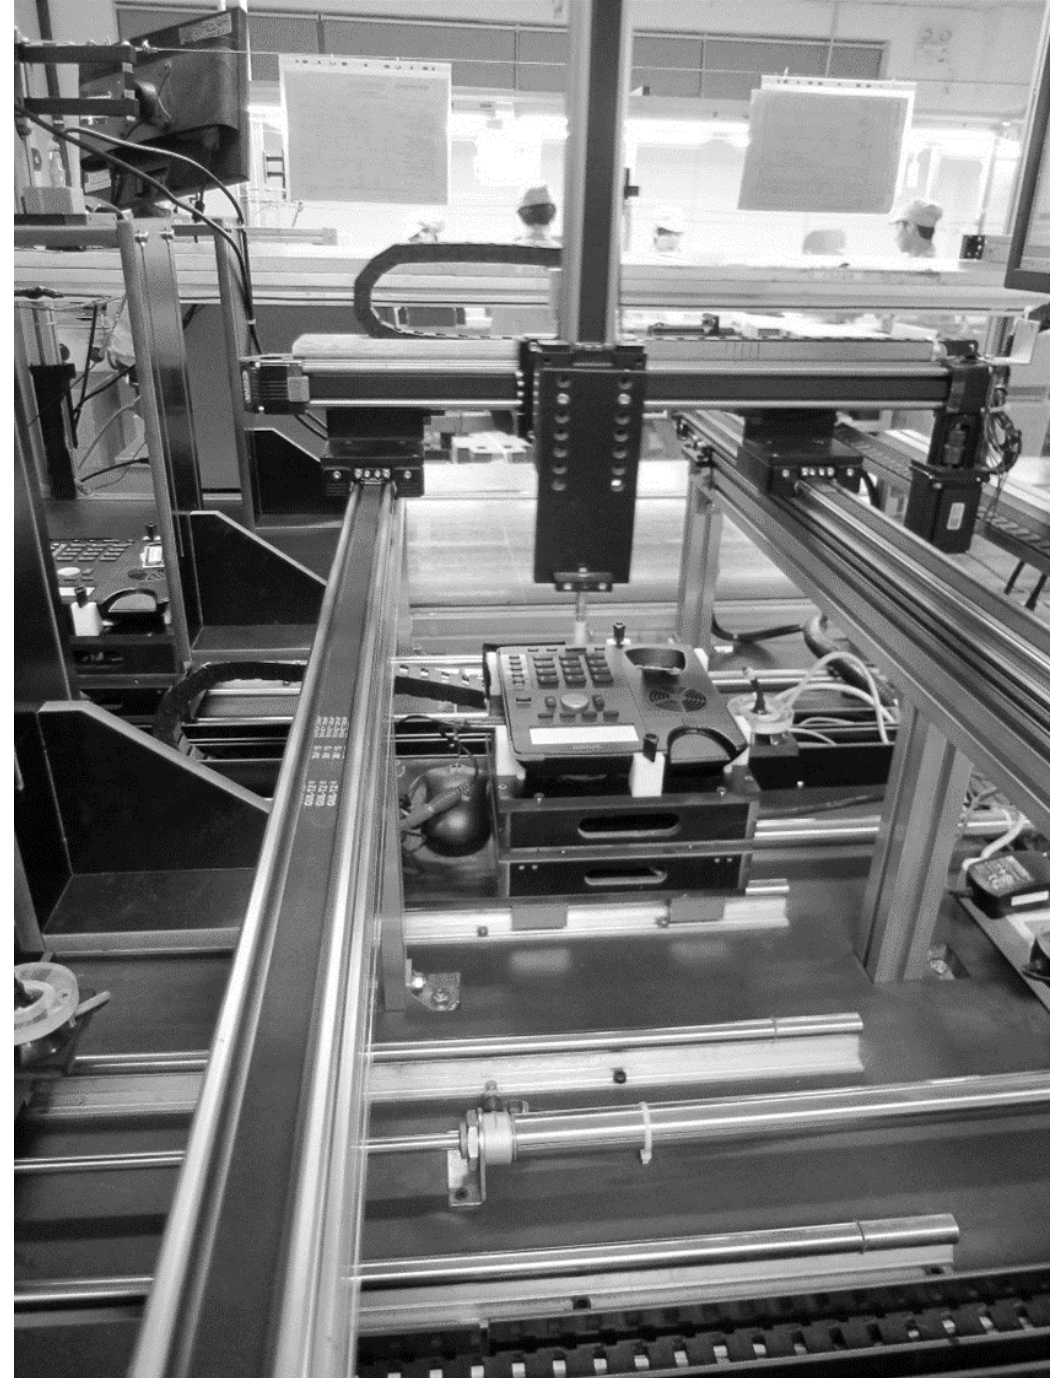

SNOM ENGINEERING

German Engineering: Quality, Durability & Security

- Lowest RMA rates in the industry
- Research and product design

Made in Berlin

- Snom products come with a 3 year warranty

THE BEST AUDIO QUALITY

We.Love.Sound

The best sound quality on the market

- With over 20 years of experience, Snom creates the best sound quality on the market
- Experts continually test and optimise all products in our own audio laboratory
- No one hit wonder: thanks to our awareness about high quality every snom phone sounds as it should

Best in class audio quality

ETSI vs. TIA

Test Scenarios	Jitter	Packet Loss	Yealink T19	Grandstream 1405	Snom D715	ETSI 202-739
Clean conditions	--	--	3.4	3.5	4.4	> 3.6
Scenario 1	20ms	--	3.4	3.2	4.4	> 3.4
Scenario 2	--	1%	3.4	3.5	4.0	> 3.4
Scenario 3	20ms	1%	3.3	3.2	3.9	> 3.4
Scenario 4	20ms	3%	3.2	3.1	3.6	> 3.2
Clean conditions	--	--	3.4	3.5	4.4	> 3.6
Scenario 1	20ms	--	3.4	3.2	4.4	> 3.4
Scenario 2	--	1%	3.4	3.5	4.0	> 3.4

Ratings of 4.2 are typically the maximum possible via telephone band
TIA covers only half duplex audio, ETSI includes double talk performance tests

SNOM SECURITY

Security First

Security as part of the interop test plan

We do everything possible to secure the end-point:

- Strong authentication - Individual SHA-2 certificates pre-installed
- Signalling encryption - SIP over TLS
- Audio encryption – SRTP
- Enforce User Mode
- Secure Webserver - HTTPs only or Off
- Strong passwords - Admin, Webserver, SIP
- TLS server authentication enforced (starting with firmware version 10.x)

SNOM SERVICES

The Snom Partner Program

- With the new Snom partner program we offer our official resellers a wide variety of benefits.
- By joining the program Snom resellers receive a rebate for every phone sold – based on their partner level
- As a welcome gift, new and verified partners can choose a free demonstration device from a wide selection of Snom phones.

The Snom Partner Program

Advantages for REGISTERED PARTNERS

- One free Snom phone
- Snom Partner logo
- Access to marketing downloads

Advantages for SILVER PARTNERS

- Rebates on Snom phones
- Basic marketing & sales support
- Access to marketing templates
- Invitation to special Snom partner events

Advantages for GOLD PARTNERS

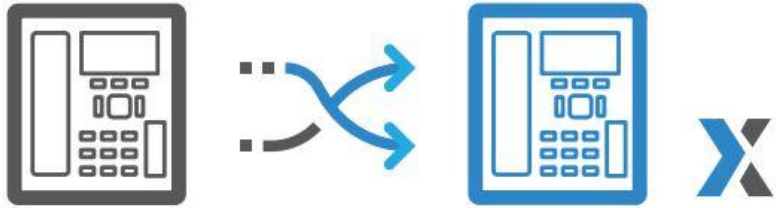

- High rebates on Snom phones
- Marketing support
- Sales support
- Access to marketing materials
- Invitations to special Snom partner events
- Listed on the Snom website

Snom as a Service

- With Snom as a Service, high investment costs can be avoided through a rental model
- The number of phones rented can be increased or reduced at any time. This offers the highest level of flexibility and security
- Every 48 months, the rented phones can be exchanged for the latest terminals on request
- Customers receive not only phones but also a PBX solution of our Snom as a Service Partner

Snom Exchange

With Snom Exchange, older Snom phones can be exchanged for new devices on very good terms.

- New devices fulfil all the relevant safety functions
- New devices offer a wide range of new functions for every day work use
- New Snom phones feature impressive modern design

How Snom Exchange works:

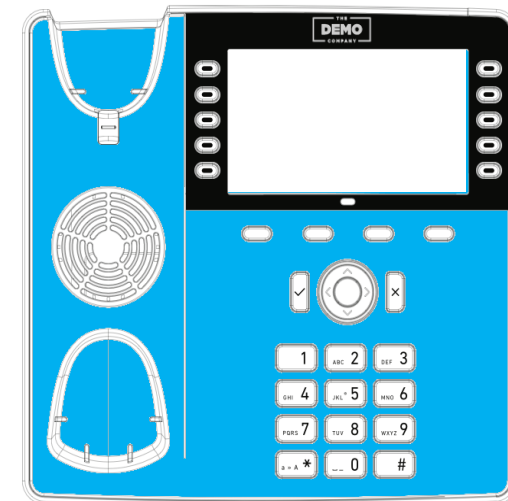

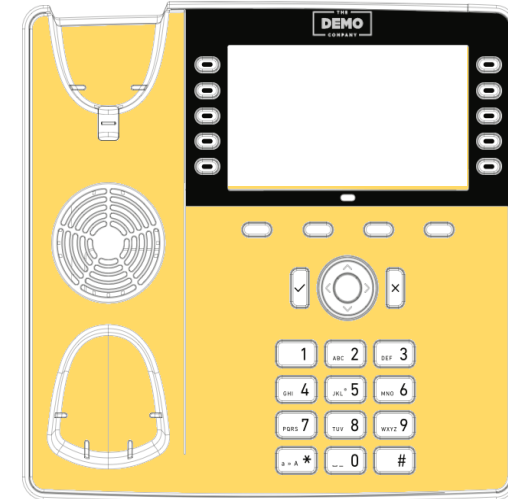

1. Phones allowed in the Exchange Program are identified
2. The MAC address of the old devices is forwarded to Snom when ordering new phones
3. You receive the new devices under special conditions

Snom Customization

To ensure that a Snom phone is not just a phone, devices can be tailored to customer wishes from a particular order quantity. We offer the following changes:

- Imprint of a logo
- Changing the printing on the buttons
- Changing the colour design of the phone top cover
- Changing the colour design of the phone bottom cover
- Changing the colour design of the phone handset

Broadcasting via SIP and Multicast
Wall and ceiling mountable
Can act as ringer device/ ringer box

A woman with brown hair pulled back, wearing a dark business suit, is shown from the chest up. She is holding a black mobile phone to her ear with her right hand and looking slightly to the left of the camera with a pleasant expression. The background is a blurred indoor setting with a light-colored wall and some green foliage.

THE NEW SNOM DECT SERIES

Benefits of DECT

- DECT devices are the perfect complement to mobile work
- Long range of up to 50m
- Snom DECT solutions are multi-cell capable and can cover whole office buildings
- Shock, dust and splash resistant thanks to IP65 Certification
- Easy administration and maintenance
- No additional license fees thanks to the integrated DECT manager in each base station

M70 – Office Handset

- Best HD Audio
- Integrated Bluetooth
- Range up to 25+ meters
- Integrated belt clip
- HAC compatible
- Multi-colour, high-resolution display
- 200 hours stand-by
- Vibrating alarm
- MIL-STD-810g tested
- Compatible with M900, M700 and M300 base station

M80 – Shock Proofed Handset

- Best HD Audio
- Integrated Bluetooth
- Range up to 25+ meters
- Integrated belt clip
- HAC compatible
- Multi-colour, high-resolution display
- 200 hours stand-by
- Vibrating alarm
- Robust Design (Ruggedized)
- IP65 and MIL-STD-810g tested
- Integrated alarm button
- Compatible with M900, M700 and M300 base station

M90 – Antibacterial Handset

- Antibacterial housing
- Best HD Audio
- Integrated Bluetooth
- Range up to 25+ meters
- Integrated belt clip
- HAC compatible
- Multi-colour, high-resolution display
- 200 hours stand-by
- Vibrating alarm
- Robust Design (Ruggedized)
- IP65 and MIL-STD-810g tested
- JIS-Z801 tested – Can be disinfected with alcohol
- Integrated alarm button
- Compatible with M900, M700 and M300 base station

M900 – Professional Multicell Base Station

- Multicell Base Station
- Seamless handover and roaming
- DECT and Lan Synchronisation
- Integrated DECT Manager
- Wireless software update via DECT data connection
- Repeater support
- PoE capable
- TLS encryption
- Support of DSP modules (Opus)

M900 – Outdoor Base Station

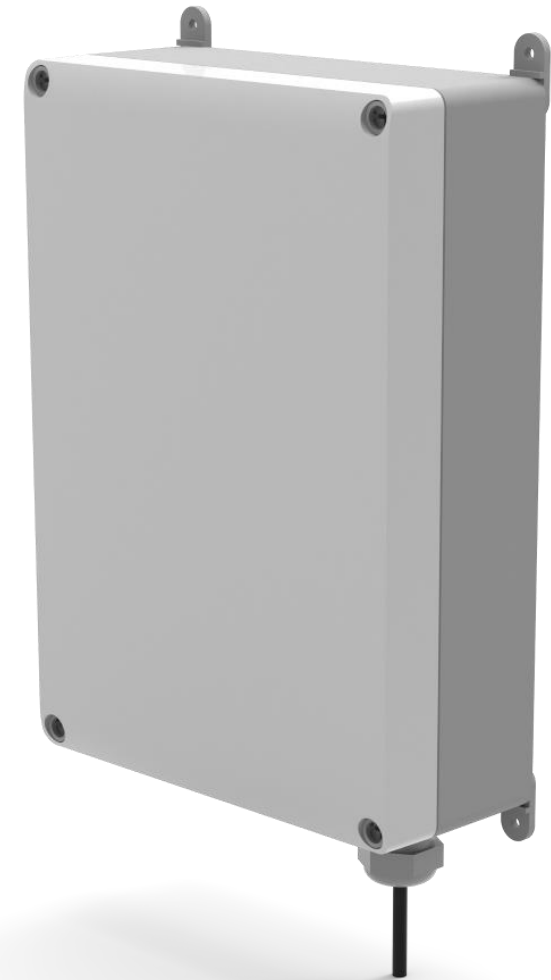

- Water and weatherproof housing
- IP55 certified
- Protected against impact and water damage
- UV protected
